

TRAINING WORKSHOPS FOR PERTH

Agile 101 (1 day) - \$695 (\$625 ACS – 10 PCP hrs*)

7 Mar

This course provides an understanding of the fundamental principles and practices of agile methodologies. Three main-stream agile methodologies (XP, Scrum and FDD) are reviewed and compared along with interactive workshop sessions and real-world case studies.

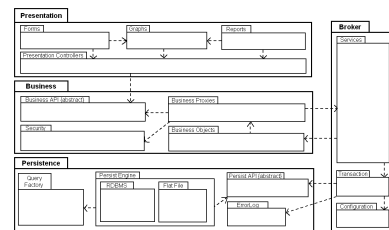

“Loved the overview (am) and exercise. Great to hear other people's issues.” Janet Graham, Business Development / Project Management, Satalyst

Software Architecture (2 days) - \$1,295 (\$1,165 ACS – 21 PCP hrs*)

15-16 Mar

An advanced workshop giving practical insights into “architecturally centric” software development. Real world and analogous examples are reviewed as well as eight group-based exercises undertaken.

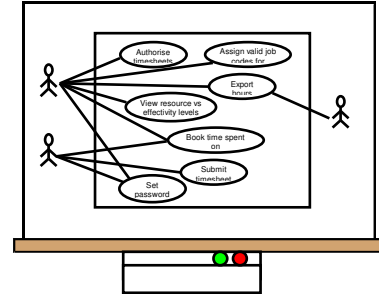

“Love the workshop session where there is more interaction for better understanding”, delegate, Intel Corporation.

“Good communicator with good knowledge, friendly. Material good and workshops help reinforce concepts.”, Nick Niceforo, Western Power

Req. Analysis: JAD to Prototype (1 day) - \$695 (\$625 for ACS – 10 PCP hrs*)

21 Mar

This course focuses on five of the key techniques that ensure the scope of a system actually meets the user’s requirements. A practical mini-JAD (Joint Application Development) session is conducted, as well as workshop exercises in Use Case analysis, Domain Object Modelling (DOM) and user interface prototyping. A number of real-world examples are also examined.

“Working with the client is probably the most important message. Domain expert constant involvement”
Mike Gardiner, Developer, Bright People Technologies.

Code Inspection (half day) - \$410 (\$360 for ACS members – 5 PCP hrs*)

22 Mar (am)

A very hands-on training workshop, with review of the different forms of code inspection/peer review, followed by a practical code inspection (in pairs) of the attendees’ code they’ve brought to the workshop.

“The exercise of actually reviewing code / being reviewed was very useful for understanding the concept” Gerard Chin, Software Engineer - Fugro Survey

“Given me better ideas of how we can improve our existing code reviews and appreciation of how effective code inspection is and can be” Andrew Hulatt, Dev. Team Lead - Vix Technology
